Design · Fabricate · Install

Who we are

Brownsteel Fab is an Abuja-based welding and metal fabrication workshop. We design, fabricate and install stainless steel, mild steel and custom metal works for homes, estates, offices, hotels and commercial sites across the FCT and beyond.

From modern cable and glass stair railings to gates, grills, steel structures, stainless furniture and boutique shop fittings, every job is measured on site, built to last, and finished to a clean standard you can show a client.

What we fabricate

01 Glass Railings

Frameless and semi-frameless glass stair and balcony railings with stainless posts and handrails.

02 Gates & Grills

Security and decorative gates, window grills and boundary works in mild or stainless steel.

03 Steel Structures

Stair frames, canopies, balconies, supports and other structural steel fabricated to drawing.

04 Shop fittings & furniture

Boutique clothing racks, display shelves, gold/rose-gold frames, tables, chairs and one-off pieces.

HOW WE WORK

Site measure → Design & quote → Workshop fabricate → On-site install & finish

Stair & balcony railings

Stainless cable and rod systems on timber, granite and marble stairs.

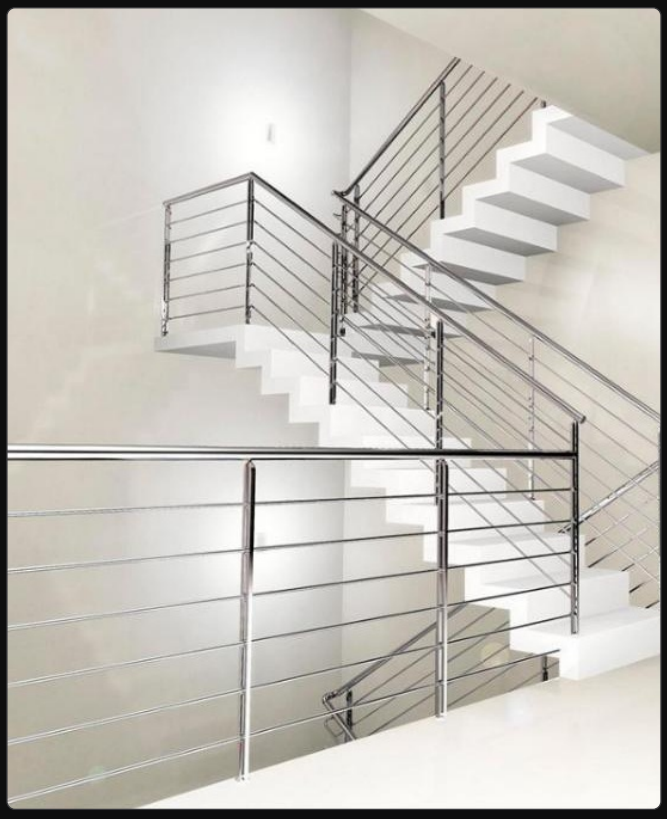

Cable railing on timber floating treads

Cable railing on black granite stairs

Horizontal rod balcony + stair railing

Multi-landing stainless rod railing

Glass & mixed-material railings

Glass panels, stainless posts and timber or stone treads.

Frameless glass stair and landing

Glass panels on timber open-riser stair

Full-height glass on a feature staircase

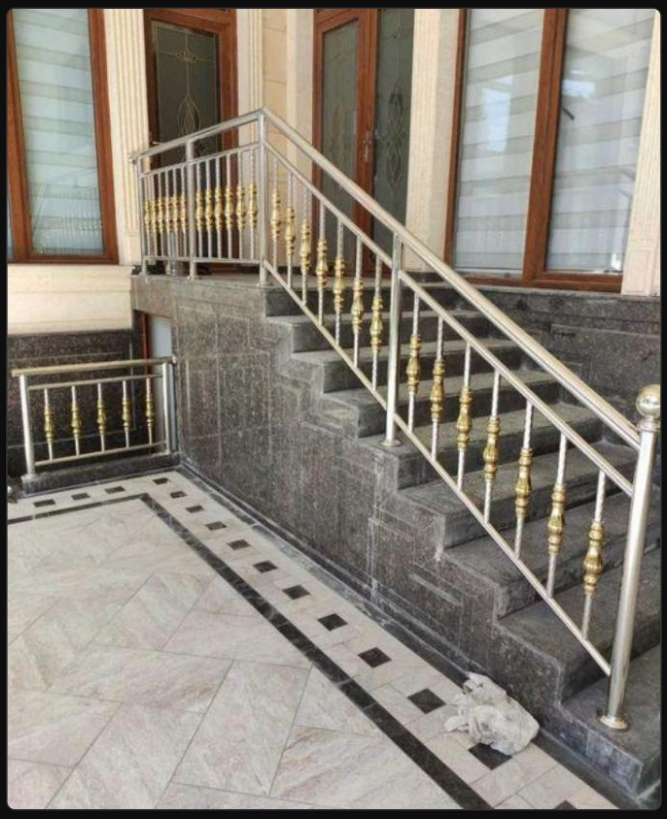

Stainless post-and-rod on marble stair

Classic & decorative railings

Gold-accent balusters and traditional stair finishes for homes and compounds.

Polished stainless with gold collars — indoor

Gold-accent baluster stair — exterior entrance

Heavy-duty stainless on stone treads

Modern black stone + stainless combination

Custom metal furniture

Stainless tables, chairs and stools fabricated for homes, bars and outdoor use.

Round stainless folding table

Square stainless outdoor table

Stainless slat garden / patio chair

Stainless bar stool

Boutique shop fittings

Gold and rose-gold clothing racks, wall systems and display frames for retail stores.

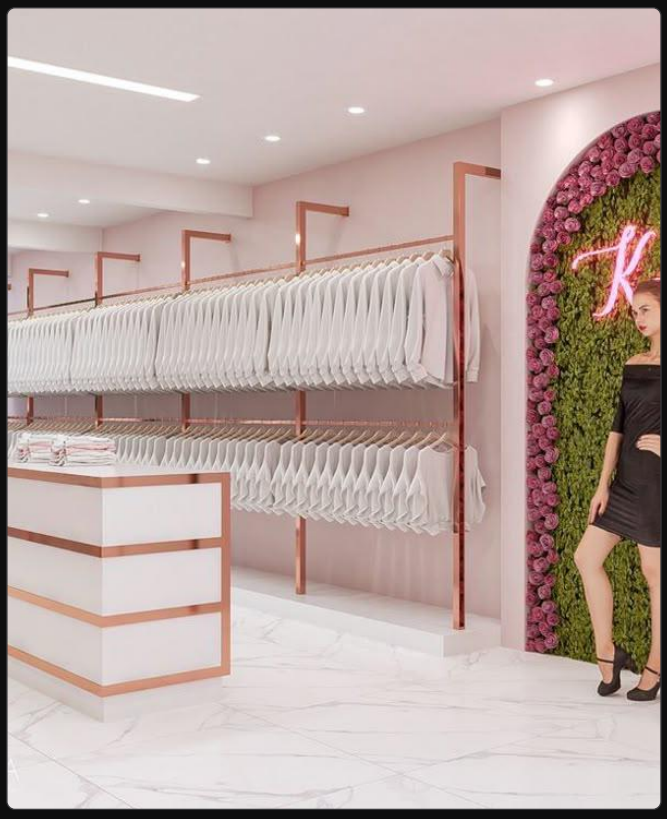

Gold arched wall clothing racks

Freestanding gold display racks

Rose-gold wall rail with drawer units

Rose-gold hanging rails & counter finish

Display shelves & table frames

Shop shelving, gold display towers and custom table bases — workshop and installed.

Gold arched display shelves

Stainless wall shelving — shop fit-out

Gold slat-leg table frame

Black and gold L-shaped table base

More tables, towers & fit-out

Extra styles we fabricate — coffee tables, nesting sets, display towers and cabinet shelving.

Gold coffee table with stone top

Nesting and side-table styles

Gold and glass display towers

Stainless shelves with base cabinets

Why clients call us

Built for Abuja sites

We understand local building styles, granite and marble finishes, estate security needs and the weather that metalwork has to survive.

Clean finish, not rough workshop look

Stainless brushing, tight welds, aligned posts and level handrails. The work is meant to sit in living rooms, hotels and gated homes.

From sketch to installation

We take site measurements, agree the design, fabricate in the workshop and install. You are not left to find a second contractor to fix it.

Range of styles

Modern cable rails, frameless glass, classic gold-accent balusters, boutique shop fittings, gold and rose-gold displays, and stainless furniture — one workshop, many finishes.

Custom, not off-the-shelf only

If the drawing is unusual — floating treads, a tight landing, a restaurant set, a balcony return — we build it to the space.

Clear communication

Call or WhatsApp 0916 888 3087. We discuss material (stainless vs mild steel), finish, timeline and price before work starts.

Let’s build it.

Send a photo of the site, a drawing, or a reference.
We will measure, quote and fabricate.
